

LUXURY CERAMICS
HAND MADE IN THE UK

A TRADITION OF EXCELLENCE

WELCOME TO SILVERDALE BATHROOMS

We are one of the few remaining bathroom ceramic manufacturers in the UK today. Every piece of pottery in our range is handcrafted in the heart of the English Potteries from the finest china clay. We know the quality of our ceramic is the best in the world because our customers and competitors tell us so. We are also proud to offer complementary products alongside our own to allow you to create a complete bathroom with the stamp of excellence. Baths, brassware, furniture, tiles and accessories are developed with UK and European partners who share our values of quality and integrity.

SILVERDALE
GREAT BRITAIN

HAND MADE
IN THE UK

MODERN

Ever since computers have been allowing us to hide our paperwork in microchips, our aspirational interiors have been emptying of clutter and filling up with light and sculptural pieces of furniture. In the bathroom this minimalist spirit has given prominence to the ceramics turning them into works of art. Silverdale's ethos of hand crafting ceramics produces glorious modern pieces.

WINDSOR

www.silverdalebathrooms.co.uk

Flights of fancy and food for thought!

Whether they are designing for traditional or contemporary bathrooms, our designers take their cues from the architecture, furniture and cultural objects of the ages. Many of our traditional designs are based on authentic original ceramic pieces from the past, the Richmond suite took its inspiration from a 1950s juke box and the Empire suite was created to sit in an Art Deco interior.

What cues is your house giving you?

Of course you don't have to follow the prompts of your property. Many of our designs work well in either traditional or modern settings and going against the grain can produce unique and fabulous interiors.

Have a look at our architectural and furniture prompts here and on pages 68 and 69 then let your imagination create the distinctive bathroom of your dreams.

All WC prices include the cistern fittings.

PERSONALISATION

With much of our manufacturing process involving hand crafting, we are able to offer you a wide choice to allow you to match your bathroom pottery to your house or your own personal vision.

Our ceramic is available in either White or Old English White with a choice of two patterned ceramic finishes and the option of having your suite with or without the Silverdale™ logo. Many pieces are also available in a dramatic Glossy Black.

For a truly personal touch, we can add your own choice of logo fired into our handcrafted ceramic pieces. Whether you want to have your family name or crest added to your basins, or to add the brand name of your luxury hotel or your business to your ceramic pieces, our personalised logo service means you can create unique bathroom designs to last a lifetime.

Contact our office for further information on how you can personalise your Silverdale™ suite.

A TRADITION OF EXCELLENCE

Our designers, modellers, casters and sprayers work within a local tradition of excellence using skills passed down through the generations in and around Stoke-on-Trent in the heart of The Potteries.

Each piece is moulded, glazed and crafted by hand to the very highest specification. Fine china clay, also sourced in the UK, is taken from the mould and finished by hand before firing. Each piece is then sprayed with three layers of glaze to achieve the sparkling, glassy depth that characterises Silverdale™ quality and finish.

Your choice of pattern, Silverdale™ logo or your own personal logo or the brand of your business, are hand applied and glazed, then fired to seal in the logo, providing you with a product that will stand the test of time.

Each piece is 100% quality checked at every production stage, allowing us to achieve perfection that exceeds industry standards and customer expectations.

A Lifetime of pleasure, guaranteed

Timeless quality deserves a timeless guarantee and that is what Silverdale™ offers for your investment in its sanitaryware.

VICTORIAN

For many people, the very epitome of the traditional bathroom look has to be Victorian.

A celebration of confident square forms with distinctive high splashbacks, the basin, closet and cistern in this suite are based on authentic original pieces re-created in all their gleaming glory by Silverdale's craftsmen.

The beauty of the Victorian look is in the strong detailing, from the options of a high level cistern to elegant basin stands that incorporate the cosy luxury of heated towel rails.

A further, more modern refinement, is a compact version of the Victorian basin to create an extra sense of space in your cloakroom or ensuite.

CELEBRATING A GRANDER AGE

BELGRAVIA

Echoing the wood panelling, the fluted feature on Belgravia coupled with its beautiful curved basin front has always been one of the essential defining features of period styling.

The look is full of character and wonderfully evocative, used here to subtle effect on Belgravia's pedestal, closet and bidet. The cistern breakfront shape is another charming traditional detail.

Belgravia combines elegance with exceptional versatility.

The choice of cistern arrangements allows you to indulge your period bathroom styling ideas as far as you like, while giving you the option of repeating the same look in your cloakroom or ensuite.

PERIOD DETAILING

exudes classical character

BALASANI

By taking the period-style splashback, reducing its size whilst preserving the fine edge detail on the basin, a unique suite with a subtle more delicate look has been created.

Based on Edwardian design style with its exquisite finishing and intricate detail, the Balasani suite when teamed with the right brassware, could be perfectly at home in a distinctly non traditional setting. This delicate splashback feature is elegantly repeated on the cistern and bidet to create a collection that is perfectly proportioned and simply stunning.

The 600mm Balasani basin can look equally at home in your ensuite, while the choice of old-world low level, modern wall mounted or close coupled cistern arrangement is another example of this suite's ability to span different eras of home design.

EXQUISITE FINISHING

combining elegance and versatility

EMPIRE

The styling of this suite was inspired by the Empire State Building in New York City, the world's most famous Art Deco building and an icon for architecture and design.

The bold angles of the suite perfectly demonstrate the Art Deco style of the 1920s which still has universal appeal today, explaining why Empire is one of our best sellers.

With the new addition of solid oak cabinets, this suite has even more flexibility than ever, allowing you to recreate a full monochrome Art Deco ambience and offering a feast of glorious centre-pieces for your bathroom.

NOUVEAU

The curvaceous lines of Nouveau bring a slightly softer, gentler charm to a traditional bathroom setting.

The generous proportions of the pieces add a sense of grandeur for those who like to make a bold statement in their home styling.

A choice of cistern styles allows you to create your own take on period-style perfection. You can echo the look in your cloakroom or ensuite.

HIGHGROVE

You could be forgiven for thinking that the inspiration for the distinctive Highgrove design was purely 21st Century, but in fact this suite's design cue came from the beautiful elliptical deep-sided shape of an original 1920's piece. Perfect proof that classic design reaches out from its own time to inspire future generations.

With Highgrove you can choose the close coupled closet and cistern or, alternatively, consider the continental styled back-to-wall closet.

The uniquely styled basins complete a highly individual look.

A VOICE FROM THE 1920s

HILLINGDON

Reassuringly solid, yet stylish and elegant, the double roll rim and soft edges of the Hillingdon suite will add a period feel to any bathroom. Combine with any of our freestanding baths for the final luxurious touch.

With dual top flush, close coupled closet, and cistern, freestanding/ back-to-wall bidet and back-to-wall closet the Hillingdon suite has all the practical features of a contemporary bathroom suite.

A choice of cloakroom and semi-countertop basins, full and semi-pedestals provides the flexibility to suit any bathroom size.

DAMEA

The striking square-edged form of the Damea basin sets the styling keynote that is pleasingly repeated in the Damea closet, cistern and bidet.

With options of wall mounted and back-to-wall pieces as well as the familiar close coupled closet and cistern, the Damea design is amazingly versatile.

The Damea suite is only available in white, apart from the 650mm basin which is available in a choice of white or black.

VERSATILE STYLING

full of striking details

DAMEA

Damea Wall Mounted Bidet
360x570x400mm, 1 tap hole, white

£365

To further enhance its looks and for convenience, the pipework at the rear of the Damea close coupled closet is hidden behind a vitreous china infill panel. If plumbing access is ever needed, the panel simply lifts away from its magnetic mountings.

EMPIRE

ART DECO

The Art Deco style is strong and angular lightened with curved flourishes. This means that our matching Empire ceramic pieces can be used either to embrace the style as a whole within an authentic Art Deco building as shown here, or will bring a hint of that glamorous, sparkling era to a more neutral architecture.

HIGHGROVE

DAMEA

MODERN

WINDSOR

A highly sculptural design created in conjunction with one of the world's most famous design houses in Italy – Pininfarina, the Windsor suite's bold, flowing form is ideal for making a design statement.

The countertop basins invoke a curled leaf ready to receive the rainfall.

Available in two sizes and two colours, it turns a functional wash station into a piece of art.

FLOWING AND ORGANIC

a futuristic design statement

HENLEY

Sometimes you don't want the ceramics to be the sculptural centre-piece of your bathroom. You want them to blend in with other items, perhaps furniture to create a harmonious ensemble.

If that is your wish, Henley, with its extensive choice of basin formats and sizes is the suite for you.

The soft, square design has been popular for a while now and is one of our best sellers. You can see why – it's easy on the eye, easy to clean and light on the purse.

RICHMOND

The Richmond suite has quiet, unassuming style but is far from bland. Its exquisite asymmetric design is strong and chunky without shouting. It has the widest range of pieces of all our collections, making it highly versatile.

Clean and fresh in white, it takes on a different personality in our deep glossy black glaze – decadent and quite simply gorgeous.

COUNTERTOP BASINS

Bathroom furniture has become more fashionable in recent years. If you are treating yourself to a fabulous centre-piece, have a look at our extensive range of beautiful basins and turn your furniture into an eye-catching piece of art.

All the basins are hand made in our factory and triple-glazed like the rest of our ceramic pieces to create a lustre unparalleled in the industry.

All basins are badged with the Silverdale™ logo but we also offer the option of a personalised logo, family crest, brand name or initials. With round, soft-square or sweeping shapes, all have matching WC's.

TILE COLLECTION

Every piece in the Silverdale™ range is handcrafted in the heart of the English Potteries.

Using traditional techniques, the finest china clay and our finest glaze, we have now created a range of perfectly matched handcrafted ceramic tiles, to ensure a truly authentic bathroom experience.

CERAMIC TILES

SILVERDALE™ BATHROOM COLOURS

Using our finest glaze, with colours perfectly matched to our sanitaryware and with a depth of shine and finish only achieved by hand, our exclusive tile colours will suit any bathroom look, decor or finish.

Available in five exclusive and traditional shades of: White, Old English White, Burgundy, Navy and Black and together complemented by four unique pastel shades of Pennine Moss, Pembroke Sand, Highland Mist and Windermere Blue.

White

Old English White (OEW)

Windermere Blue (WIB)

Highland Mist (HIM)

Pennine Moss (PEN)

Pembroke Sand (PBS)

Burgundy (BUR)

Navy (NVY)

Black (BLK)

DADO MOULDINGS

Our unique and authentic Silverdale™ dado mouldings are handcrafted to mirror the exquisite detailing on our traditional ceramic ware. Our Victorian styled Windsor dado, acts an authoritative piece in its own right, perfectly framing any tiled area and complementing the traditional skirting tile and design. The Traditional Balmoral dado will act as a simple finishing touch to large tiled areas, whilst the Sandringham border tile can be used as a neat finishing piece or more traditionally to add definition between contrasting tile colours.

Ordering examples:

If you require Highland Mist Half Tile use code and tile suffix BCHLFTLHIM

If you require Navy Field Tile use code and tile suffix BCFLDTLNVY

SEATS

We take a great deal of time creating a toilet seat to exactly match each WC pan, whether in the quality of the materials, the subtleties of design and, in the case of the white, exact colour matching to the Silverdale™ white ceramic.

It's not all about looks either. Comfort is also an important consideration in our design process.

All our white seats are equipped with a patented soft-close mechanism, helping to reduce noise in the home.

WC SEATS WOODEN SEATS

Our luxury hardwood seats are available in Light Oak, Dark Oak, Ebony Black and Mahogany finishes for the Victorian, Belgravia, Balasani, Empire and Nouveau Suites. All of these seats are available with either chrome, incalux or polished nickel hinges.

They are crafted from solid oak using traditional techniques designed to create robust and stable seats. They are finished in superior anti-bacterial coatings giving modern benefits to a traditional look product.

The heavy-weight bar hinges are plated to the highest standard while the finishing touch is the inset Silverdale™ logo plate in the lid.

Light Oak

Dark Oak

Heavyweight bar hinge

Polished nickel

Chrome

Incalux

Chrome hinges: £195

Incalux or Nickel
hinges: £235

All our handcrafted, hardwood closet seats are beautifully finished with the Silverdale™ logo plate and traditional heavyweight bar hinge.

WHITE THERMOSET SEATS

All of our close-coupled, wall mounted and back-to-wall WC pans can be fitted with a premium grade, white thermoset seat.

It is heavyweight, doesn't bounce or shake and is wrapped to the pan. It comes with a soft-close mechanism, quick release hinges, anti-bacterial coating and 15mm of adjustment. The soft-close mechanism, patented in Germany, carries a 10 year guarantee and can be forced by children without being damaged. The materials of the seats come with a 2 year guarantee.

White soft-close thermoset seat

White seats offered to suit:

NEW

FURNITURE

The bathroom can be a place of hard, smooth surfaces but wooden furniture introduces a softer and warmer material and gives you a whole new way of using the ceramic basins allowing you to transform the feel of the room.

FURNITURE

Our furniture is handcrafted by specialists in the UK from specially selected pieces of solid oak and carefully painted with a resistant, protective lacquer to give a silky finish. Each cabinet has an adjustable shelf and a pewter effect handle. The designs are simple and match our vanity basins to perfection.

Victorian 635mm Basin
635x485x930mm, 2 or 3 tap holes, white £405
Basin also available in Old English White

Victorian Vanity Unit 635x490x800mm

HEATED TOWEL RAILS & BASIN STANDS

Designed specifically for use with the Victorian, Balasani, Damea and Charlbury basins, Silverdale's basin stands are the finest quality available, each one crafted in solid brass tubing and available in a choice of chrome, incalux or polished nickel finishes.

The Victorian basin stands include a towel rail which may also be heated with the addition of valves.

All our premium quality UK manufactured heated towel rails use arsenical or de-zinc brass and unlike inferior rails, they may be fitted on an open or closed water heating circuit.

Our range of traditional basin stands and heated towel rails are hand polished and pressure tested at three stages; before and after polishing and again after the rail has been plated, to ensure it will withstand a lifetime of use in your bathroom.

HEATED TOWEL RAILS & BASIN STANDS

Victorian 635mm Basin
635x485x930mm, 2 or 3 tap holes, white £405
Also available in black £485

BATHS

If you are wanting to create a dramatic focal point for your bathroom, you cannot go wrong with an iconic freestanding cast iron bath.

Choose your preferred shape – a Double Ended bath or Slipper bath with feet or an imposing galleon style on a plinth – then make it your own by painting the exterior in your chosen colour.

The interiors of all our cast iron baths are finished in heavy white enamel while the exterior surface is supplied unfinished, primed and ready for painting.

BATHS

PORTIA DUAL ROLL TOP ON PLINTH

1780x800x585mm
2 tap holes £2,950

Weight: 182Kg
Capacity: 240 Litres
Bathing depth: 465mm

Shown here with telescopic
shrouds in polished nickel £271
Victorian bath shower mixer
bridge in polished nickel £749
Exposed waste and overflow for
freestanding baths in polished nickel £201

Please note that owing to reduced space
below the base, this bath will need to have
the trap sunken below the floor or else a
shallow trap sourced.

BRASSWARE

Silverdale Bathrooms offers three comprehensive tap collections to allow you to add the all-important gleaming finishing touches to your bathroom.

Our brassware is cast in solid brass for durability and protected by genuine chrome or an incalux (gold effect) or polished nickel finish. The taps come with a 10 year guarantee and have been tested and approved for use on both high and low pressure plumbing systems.

All our solid brass Victorian compression valve taps are engineered to the highest possible standards and all are available plated and hand polished in bright chrome, incalux (gold) or polished nickel to give the finest possible finish.

All available in the following finishes:

SHOWERING

Whatever your chosen Silverdale™ scheme is this collection of showering helps you add the all-important quality details – the magnificent, gleaming finishing touches for your chosen bathroom look.

Using the latest technology, cast in solid brass for durability and protected beneath a choice of genuine chrome, incalux or polished nickel (available to order) finishes, these luxurious showerings are manufactured in the heart of the UK.

SHOWERING

Our thermostatically controlled showers are fitted with the latest technology which automatically mixes the hot and cold water to the preselected temperature when the shower is switched on. This means the water temperature will be maintained even during water pressure changes, with an automatic shutdown that prevents the risk of scalding.

Incalux

Exposed thermostatic shower valve,

GUARANTEES

We are immensely proud of the product we manufacture at Silverdale™. It is manufactured by hand and checked by many to ensure that the quality passes our exacting standards and that it reaches you in perfect condition. We are confident that it will give you many years of pleasure and service. In the unlikely event that you experience any defects or a claim under the guarantee is confirmed by Silverdale, we offer to replace the product free of charge. If the product is no longer available, Silverdale will replace the product with the closest available equivalent.

Our lifetime guarantee on the ceramic product we make is detailed within a guarantee card you will receive in each piece you purchase from Silverdale. We ask that you complete and return the guarantee to us within 28 days of purchase to qualify for our extended manufacturers warranty.

Our products are guaranteed against manufacturing defect for the following periods:

Ceramics –	Lifetime
Cast iron baths –	Lifetime
Brassware (excluding valves, O rings and seals) –	10 years
Valves, O rings and seals –	12 months
Cistern Fittings –	2 years
Wooden Toilet Seats –	2 years
Soft-close system on thermoset seats –	10 years
Thermoset Toilet Seats – materials only –	2 years
Accessories and Basin stands –	2 years
Furniture –	2 years
Tiles –	5 years

TERMS OF THE GUARANTEES

Our warranty is in addition to your consumer statutory rights and does not affect those rights in any way. It is important to follow our instructions whilst fitting the products and to use the care instructions outlined in our guarantee card.

Any claim under the guarantee must first be reported to the retailer where you purchased your goods and must be accompanied by the proof of purchase. We reserve the right to request supporting photographic evidence and the opportunity to inspect the product as installed. Any broken product removed from its installation should be stored for inspection by our staff.

The guarantee covers products supplied for installation into domestic premises in the UK and Ireland only.

The guarantee may be transferred to a subsequent purchaser of the premises in which the product is initially installed, but it will not apply if the product is re-installed elsewhere.

This guarantee does not extend to any item rendered defective by faulty installation, inappropriate use and accidental or malicious damage after purchase, nor does it cover normal wear and tear.

PRODUCT PURCHASE, FITTING AND CARE GUIDELINES

Purchasing

1. Purchasing your Silverdale™ Bathroom: We strongly recommend purchasing your bathroom using the advice of a bathroom specialist. Bathroom retailers generally have in-house designers as well as experienced advisers who understand all the potential technical pitfalls around fitting and commissioning a new bathroom. They will often be able to recommend good, qualified fitters too. Please call our office for a list of the retailers we work with.

2. Despite our high manufacturing quality, vitreous china products made from natural, fine clays shrink during firing. This is not a controllable process. While our quality checks, eliminate any products with visible distortions, there will inevitably be some small variations in dimensions. All sizes quoted in this brochure are nominal and vitreous china may vary by +/-2% in relation to the sizes shown here and in the technical drawings on our website.

These variations are generally immaterial when it comes to fitting, except where the hand-produced ceramic meets a more industrially produced product such as a countertop or furniture. In this case, the bead of silicone required to seal the products will easily hide any small gaps.

Fitting:

1. Upon delivery: All products should be carefully inspected for any faults before installation and if dimensions are critical to the project, items should be physically checked in the space or against any adjoining products before proceeding.

2. Vitreous China: Is non-porous and hard-wearing but brittle. It should not be put under stress during the installation of brassware and wastes. Overtightened fittings can cause failure after a period of time has elapsed.

3. WC Cistern Flushing: All Silverdale™ pans and cisterns are designed and tested to flush correctly at six litres in accordance with European standards. Cisterns are supplied with the appropriate flushing valves, levers and pipes to ensure this and we cannot accept responsibility for performance where fittings have been badly installed or substituted.

4. Cast Iron Baths: The manufacture of cast iron baths is a highly industrial and a difficult process of fusing enamel onto red hot cast iron.

As such it may produce slight ripples, dimples and black specks on the internal surface of the bath. These are entirely normal and will not affect the performance of the bath or its longevity. It is important to avoid taps dripping onto the inner surface. The outer surface is primed for painting with a bathroom paint (at least two coats generally required) which will cover any initial unevenness of surface or colour.

5. Wood WC Seats and Furniture: As wood is a natural material it is subject to colour and grain variations from product to product, so perfect colour matches between seat and cabinets are not always possible. The colour of natural wood will also mature and therefore change over time.

6. Granite: Our granite tops are produced from a solid piece of natural stone. Each piece will be unique and have its own character. The variations of pattern and colour are not the result of poor workmanship or materials. The granite tops are supplied pre-bonded with the undermount basin.

7. Tiles: All our tiles are manufactured in the UK using the finest glaze to match our ceramic sanitaryware. They are manufactured in compliance to BSEN14411. Slight shade variation is an inherent feature of ceramic tiles and mouldings and add to their beauty. Before fixing tiles, it is important to lay them out in good light to ensure that any shade difference is evenly distributed.
