BATHS

Luxurious free-standing baths

Vicenza Petite ClearStone Bath, page 27

Introduction

Clearwater have used international designers to bring together a stunning and elegant range of free-standing baths using the finest materials and engineering. Our innovative material ClearStone has a lustrous finish across modern and classic designs, whereas velvety Natural Stone allows for refined edges and more complex designs across a selection of baths and basins. Choose modern designs that reflect today's contemporary styles, or Classic free-standing, roll top designs with period style.

INDEX:

For full index see inside back cover.

DESIGN. THE MODERN COLLECTION *Pages 05 to 37*

Our beautifully crafted and extensive modern collection has been designed to offer the very best of contemporary style. By using the best materials, our designers have created baths with thinner rims, increasing the internal space whilst allowing for smaller external sizes. So now free-standing baths can fit into bathrooms of modest size, providing an eye-catching centrepiece and that extra piece of luxury. Many of our popular models are available in Grande and Petite sizes, with the Petite internal space just as generous as most conventional baths.

DESIGN. THE CLASSIC COLLECTION *Pages 39 to 46*

For a true vintage look in your bathroom, choose from our range of Classic models, covering every installation and size requirement. There are roll top baths with a choice of feet in various styles and colours, so you can tailor your bath to your own individual tastes and to work seamlessly with your own décor and bathroom surroundings.

MATCHING BASINS *Page 66 to 67*

To co-ordinate with our baths, several designs have matching basins crafted from both ClearStone and Natural Stone, to continue the feeling of luxury throughout your bathroom. Choose from sleek modern designs or Classic shapes to complement your chosen bath.

TAPS AND MIXERS *Page 68 to 75*

To complete the picture we have partnered up with Britton and Burlington to provide both exceptional modern and Classic brassware, which lead the field in innovation.

INSTALLATION. All our baths are designed with simple installation in mind. Full instructions and drawings are available on our website and can be downloaded so the installer can prepare and first fix, ready for when the bath arrives. All Natural Stone and ClearStone baths are carefully packaged for full protection during transit and all Natural Stone and ClearStone baths come with a multi-handle carrier to help handling on site.

Materials, engineering & installation

Clearwater has years of experience in designing and making free-standing baths and only use the highest quality materials.

ALL OF OUR BATHS ARE DESIGNED TO PROVIDE:

A non-toxic and eco-friendly material which is safe on the skin.

Non-porous, resistant to staining or discolouring

Easy Clean material with high resistance against bacteria, mould and dirt.

Good thermal insulation properties, keeping the water temperature warmer for longer.

- Designed with thin edges to ensure maximum bathing space – a 1600mm Clearstone bath has the equivalent bath space as a 1700mm standard bath.
- One piece solid surface bath.
- Available in both modern and classic designs with a variety of sizes.

CLEARSTONE:

This advanced, new material is a fusion of milled sedimentary stone bonded by a high performance aluminium and titanium filler base. The result creates a hardwearing, high gloss surface in a brilliant white colour, with exceptional performance engineered to last a lifetime.

- Aluminium and titanium compound with a stone carbonate base creates an exceptionally strong material, with a high resistance to scratching or chemical damage.
- Moulded polyester polymer coating giving hard wearing high gloss finish.
- High strength to weight ratio with most baths weighing under 100kgs.
- Thinner, more delicate edge outlines - tapering profiles give an overall softer, more sophisticated appearance.

NATURAL STONE:

The hand polished solid surface material remains a favourite with architects and designers, who appreciate the sharp edging and unique sheen of this material.

This unique hand crafted aspect of 'Natural Stone' will continue, being best suited for the more radical and complex designs used in baths like the Lacrima, Lonio and Vigore.

These baths offer:

- Sharper lines
- Hand polished for over ten hours
- No unsightly joins
- Clean dynamic lines
- Small scratches and blemishes can be polished out
- The Natural Stone material is suited to the more complex bath shapes

Modern

Clearwater has an extensive range of free-standing modern baths in both Natural Stone and ClearStone, in Grande and Petite sizes, a solution suitable for smaller bathrooms. Alternatively, choose from beautiful, ergonomic baths, shaped to provide the ultimate relaxing bathe. All are exquisitely crafted to provide a gorgeous centrepiece in contemporary bathroom settings.

New Duo ClearStone bath,
Crystal bath filler on stand pipes and
click-clack bath waste.

See page 50 for technical details
on the Duo bath.

In order to make our Duo baths suitable for more
applications we have removed the integrated
overflow. You will be able to have an overflow by
using an external overflow as shown on page 76.

NEW

DUO *ClearStone* The Duo is a stunning shell-like shape with beautiful curves that blend into your bathroom surrounding. The Duo bath comfortably fits two people.

PATINATO GRANDE & PETITE *ClearStone* Gorgeous geometric angles with slim, sharp edges make this ClearStone bath and matching basin perfect for those who like distinctive geometric shapes. Choose the Petite version with a smaller footprint for bathrooms of a moderate size. Both designs feature a back to wall ledge to sit flush against a wall, maximising space in your beautiful bathroom.

Patinato Grande ClearStone bath with Sapphire single-lever bath filler and no overflow un-slotted click-clack waste. New Patinato Petite ClearStone bath and Sapphire single-lever bath filler and click-clack waste.

See page 51 for technical details on the Patinato baths.

In order to make our Patinato baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

Natural Stone equivalent is available while stocks last.

**10 YEAR GUARANTEE
ON ALL OUR BATHS**

See website for more details

FORMOSO GRANDE *ClearStone* This elegant and understated, popular bath is available in two sizes and has clean and simple lines, which create a shapely aesthetic well suited to all modern day bathrooms. Pair with the matching Formoso basin for a beautiful and design linked bathroom.

Formoso ClearStone bath with Crystal bath filler on stand pipes and click-clack waste, Formoso basin with Crystal Tall basin mixer and click-clack basin waste.

See page 52 for technical details on the Formoso Grande bath and page 66 for the Formoso basin.

In order to make our Formoso baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

FORMOSO PETITE *ClearStone* The same minimalistic, beautiful design of the Formoso Grande bath, but with a smaller 150cm length to fit into most modern bathrooms. The internal space of this bath is bigger than most full size normal baths, thanks to its narrow rim.

Formoso ClearStone basin with Crystal Tall basin mixer and click-clack basin waste. Formoso Petite ClearStone bath, Crystal single-lever bath filler on stand pipes and click-clack waste.

See page 52 for technical details on the Formoso petite bath and page 66 for the Formoso basin.

In order to make our Formoso baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

**10 YEAR GUARANTEE
ON ALL OUR BATHS**
See website for more details

SONTUOSO *ClearStone* A luxurious curvaceous bath with generous sloped sides. Partner with the Sontuoso basin in the same high gloss ClearStone for a seamless, matching aesthetic across other sanitaryware and even tiles. Or choose the Natural Stone basin for an interesting point of difference.

Sontuoso ClearStone bath, Crystal floor-standing bath filler and click-clack bath waste. Sontuoso Natural Stone basin, Crystal Tall basin mixer and click-clack basin waste.

See page 53 for technical details on the Sontuoso bath and page 66 for the Sontuoso basins.

In order to make our Sontuoso baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76. Natural Stone equivalent is available while stocks last.

10 YEAR GUARANTEE
ON ALL OUR BATHS

See website for more details

PURO *ClearStone* The Puro is designed especially for the comfort of the body to ensure complete relaxation. The curvature of the innovative ClearStone material means the bath and matching basin sit seamlessly in a modern environment and softens the architectural feel of a contemporary bathroom. Also available with an additional chrome plinth for guaranteed standout appeal.

Puro ClearStone bath, Crystal floor-standing bath filler and un-slotted click-clack waste. Puro ClearStone basin, Sapphire Tall basin mixer and click-clack basin waste.

See page 54 for technical details on the Puro bath and page 66 for the Puro basin.

In order to make our Puro baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

Natural Stone equivalent is available while stocks last.

NUVOLA *ClearStone* Classic and contemporary combine to create this pure vision of elegance. Subtle curves, simple edges and a raised base give a modern twist to a timeless shape.

New Nuvola ClearStone bath, Sapphire bath shower mixer on stand pipes and click-clack bath waste.

See page 53 for technical details on the Nuvola bath.

In order to make our Nuvola baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

PALERMO GRANDE *ClearStone* Elongated, geometric shape with concave curved sides give this bath the wow factor. Available in two sizes for flexibility of space.

**10 YEAR GUARANTEE
ON ALL OUR BATHS**
See website for more details

Palermo Grande ClearStone bath, Crystal floor-standing bath filler and click-clack bath waste.

See page 55 for technical details on the Palermo Grande bath.

In order to make our Palermo baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

Natural Stone equivalent is available while stocks last.

PALERMO PETITE *ClearStone* The same beautiful bath with stylish tapered sides but with a shorter length of just 152cm. Pair with the matching basin for an overall look of sophistication and class. Also available in Grande, see page 18.

Palermo Petite ClearStone bath, Crystal floor-standing bath filler and un-slotted click-clack waste. Palermo ClearStone basin, Sapphire Tall basin mixer and click-clack waste.

See page 55 for technical details on the Palermo Petite bath.

In order to make our Palermo baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

Natural Stone equivalent is available while stocks last.

TEARDROP GRANDE *ClearStone* A unique shaped modern bath with eye-catching lines and dramatic presence. This bath comes in two sizes to provide flexibility for every sized bathroom. The Grande photographed here, is 191cm in length, whereas the Petite is just 169cm (see page 24).

**10 YEAR GUARANTEE
ON ALL OUR BATHS**
See website for more details

Teardrop Grande ClearStone bath with Crystal floor-standing bath filler and click-clack waste. Teardrop ClearStone basin with Sapphire Tall basin mixer and click-clack basin waste.

See page 56 for technical details on the Teardrop Grande bath and page 66 for the Teardrop basin.

In order to make our Teardrop baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

CLAR equivalent is available while stocks last.

TEARDROP PETITE *ClearStone* The Petite Teardrop, available in 169cm, is the finest option for those looking to include a free-standing bath within a slightly smaller bathroom. Exquisitely designed so the taps can be placed anywhere around the bath. Also available in Grande (see page 22).

Teardrop Petite ClearStone bath with Crystal floor-standing bath filler and click-clack waste. Teardrop ClearStone basin with Sapphire Tall basin mixer and click-clack basin waste.

See page 56 for technical details on the Teardrop Petite bath and page 66 for the Teardrop basin.

CLAR equivalent is available while stocks last.

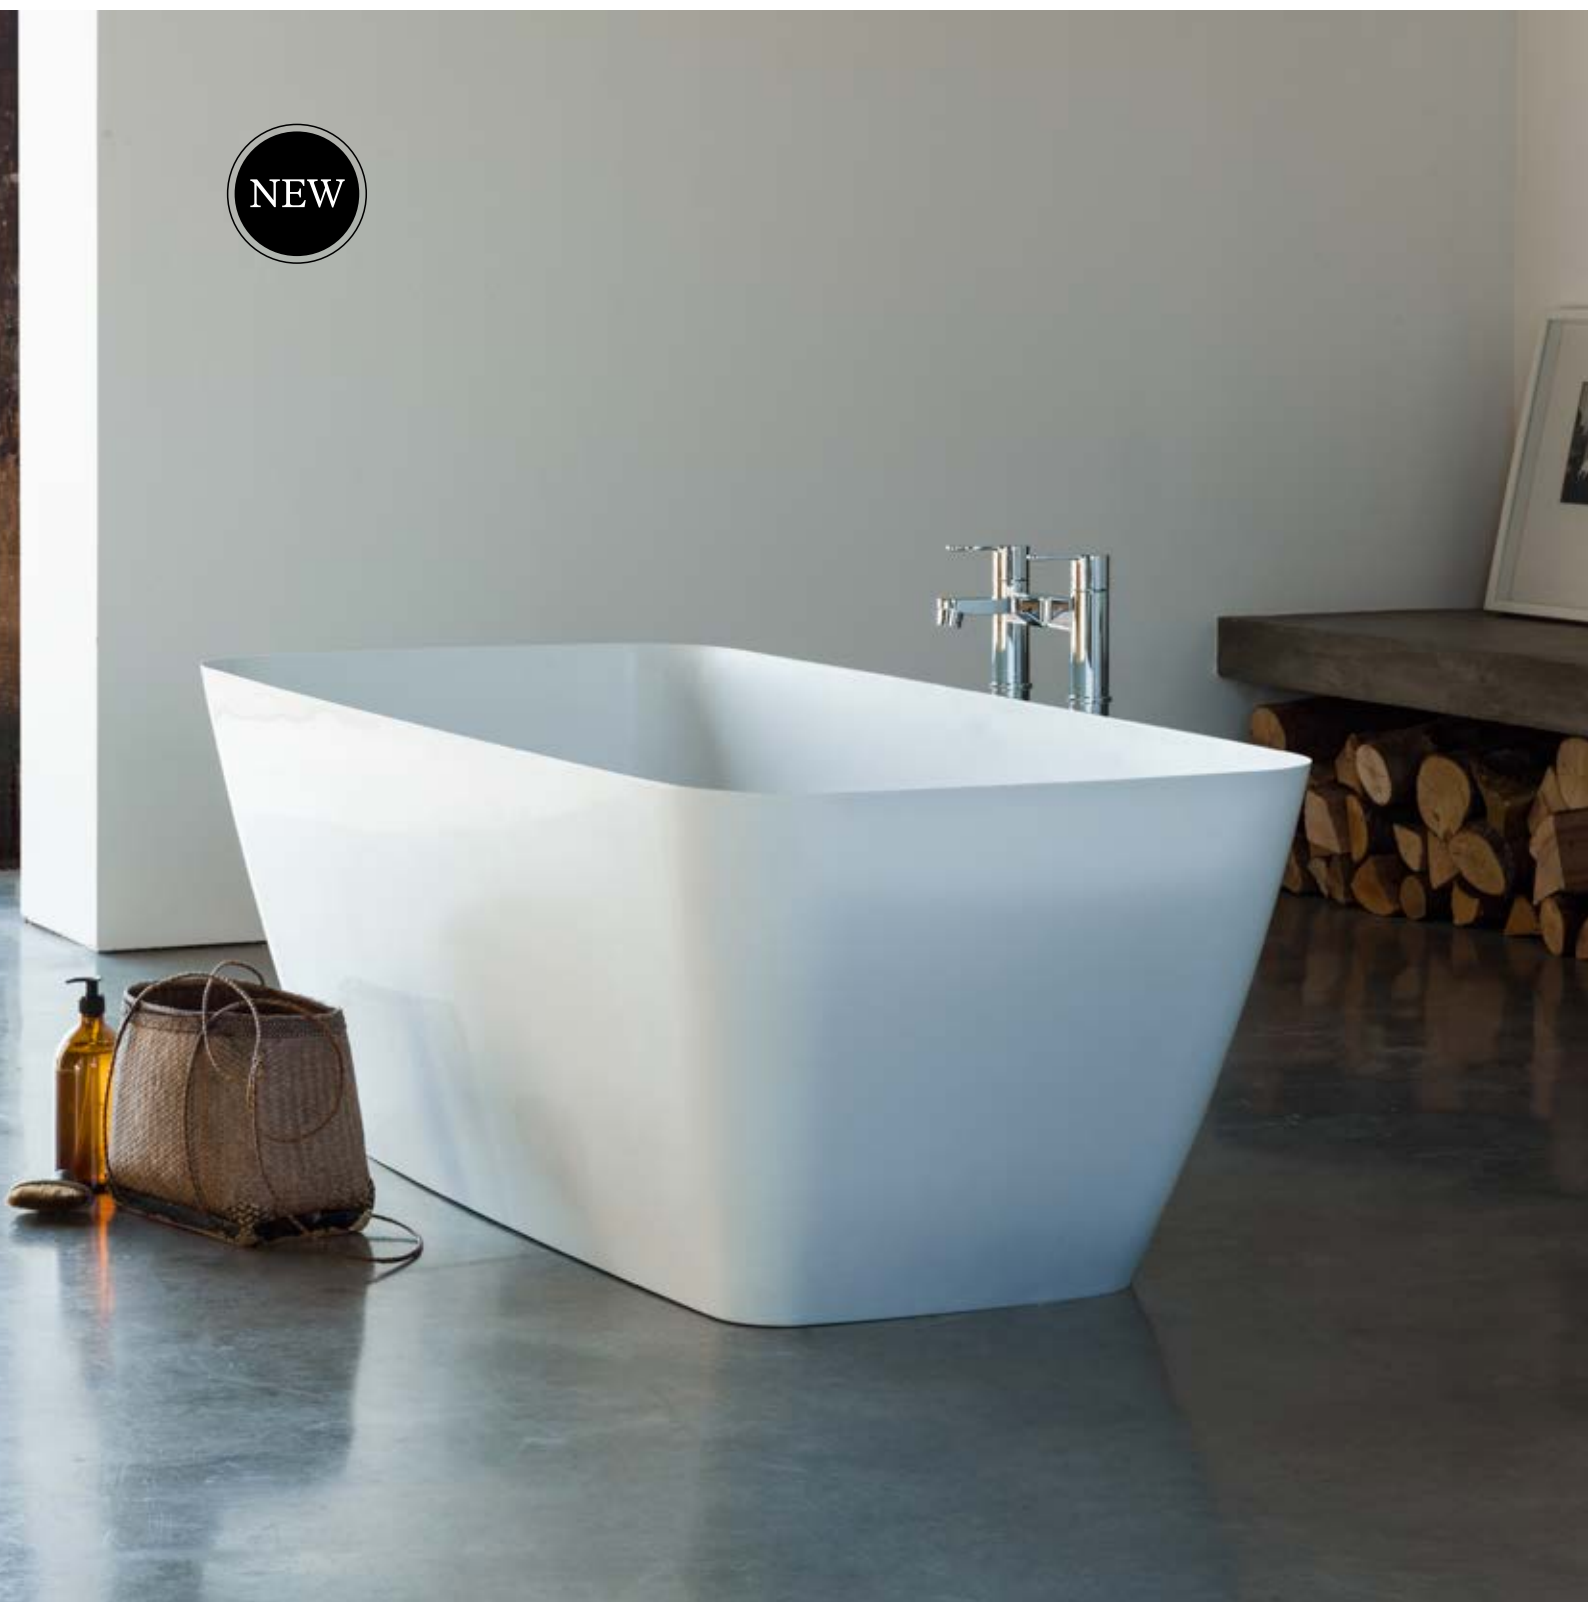

**10 YEAR GUARANTEE
ON ALL OUR BATHS**
See website for more details

VICENZA PETITE & GRANDE *ClearStone* A beautiful, impactful bath which adds to a general feel of luxury and sophistication but with a length of just 152cm in Petite versions to fit into smaller bathrooms. Also available in a Grande size and the additional choice of Natural Stone in two sizes to suit your own preferences (see page 28).

New Vicenza Petite ClearStone bath (as shown) with Crystal floor-standing bath filler and click-clack waste. Also available in Grande size. Vicenza Natural Stone basin with Crystal Tall basin mixer and click-clack basin waste.

See page 57 for technical details on the Vicenza Petite bath and page 66 for the Vicenza basin.

In order to make our Vicenza baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

VICENZA & VICENZA PICCOLO *Natural Stone*

Striking bath available in two sizes with sharp, fine edges counterbalanced with attractive curved ends. This popular style is available in both Natural Stone and ClearStone for the ultimate variety of choice. Choose from four styles depending on whether you prefer a velvety texture or lustrous, glossy finish.

Vicenza Natural Stone bath (as shown) with Crystal floor-standing bath filler and click-clack waste. Also available in Piccolo size.

See page 58 for technical details on the Vicenza Natural Stone bath.

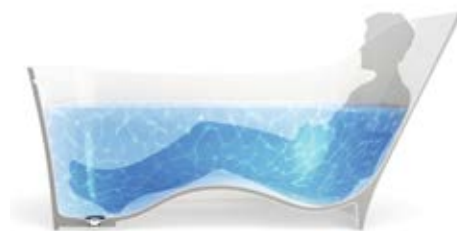

10 YEAR GUARANTEE
ON ALL OUR BATHS
See website for more details

NEBBIA *Natural Stone* A beautiful ergonomic bath, shaped and styled to provide the ultimate, supportive bathe that feels as if you are floating. The shapely lines of this striking modern bath continue at the base meaning your entire body is supported at the perfect angle.

This bath has to be the ultimate place for relaxation. The Nebbia bath has been moulded around the human body for the ultimate feeling of comfort. The clever use of the patented channels on the side of the bath allows the water to drain, without interfering with the ergonomic shape.

The gentle curves of the Nebbia support the human body, removing the need to 'prop' the body up with the feet on the far end of the bath.

Nebbia Natural Stone bath, Crystal floor-standing bath filler and click-clack bath waste.

See page 59 for technical details on the Nebbia bath.

NEBBIA *Natural Stone* A beautiful ergonomic bath, shaped and styled to provide the ultimate, supportive bathe that feels as if you are floating. The shapely lines of this striking modern bath continue at the base meaning your entire body is supported at the perfect angle.

LACRIMA *Natural Stone* This dramatic, oval shaped, Natural Stone bath provides an eye-catching centrepiece. With its raised stance and imposing structure, this bath is perfect for bathing with a partner. Pair with our Crystal single-lever bath filler for an elegant, architectural look.

Lacrima Natural Stone bath, Crystal floor-standing single-lever bath filler, click-clack bath waste, P-trap and P-trap connection pipe.

See page 59 for technical details on the Lacrima bath.

VIGORE *Natural Stone* The Vigore creates a stunning profile in the bathroom by raising the viewpoint off the floor with specially designed, all-in-one edged feet all made from the same Natural Stone material. For those looking for an alternative take on the floor-standing modern bath, this is the perfect choice.

Vigore Natural Stone bath, Crystal floor-standing
single-lever bath filler and click-clack bath waste.
See page 60 for technical details on the Vigore bath.

ARMONIA *Natural Stone* A classic Natural Stone shape with extra attention to detail on the thin rim and inward sloping design of the outer shape. A larger bath with a comfortably spacious interior. Pair with our Crystal bath filler on stand pipes for a striking yet simple design.

Armonia Natural Stone bath, Crystal bath filler
on stand pipes and slotted click-clack waste.
See page 60 for technical details on the Armonia bath.

**10 YEAR GUARANTEE
ON ALL OUR BATHS**

BATELLO GRANDE *ClearStone* The sloping curves and rolled edges of this outstanding classic bath make this product a true focal point in any bathroom. Customise with feet in your choice of style and colour to tailor-make your own designed look.

For feet options see page 64.

ROMANO GRANDE & PETITE *ClearStone*

With an elegant graduating slope crafted at the perfect angle for a relaxing bathe, the Romano is a firm favourite. With the flexibility of both Grande and Petite sizes, even the most modest sized bathroom can have its own vintage styled piece of indulgence.

For feet options see page 64.

Left: Romano Petite ClearStone bath with black Claw feet, Burlington Claremont floor-standing bath shower mixer, click-clack waste, P-trap and P-trap connection pipe. Right: Romano Grande ClearStone bath with white Claw feet, Burlington Claremont floor-standing bath shower mixer, click-clack waste, P-trap and P-trap connection pipe. The Romano baths can be used with a Fire Hydrant waste, see page 78.

See page 62-63 for technical details on the Romano baths.

In order to make our Romano baths suitable for more applications we have removed the integrated overflow. You will be able to have an overflow by using an external overflow as shown on page 76.

Natural Stone equivalent is available while stocks last.

LONIO *Natural Stone* The simplistic yet eye catching design of the Lonio bath makes it a flawless choice for those looking to bridge the gap between contemporary and traditional. The thin rim of the bath and the built in Natural Stone legs make this a beautiful centre piece for any bathroom.

Lonio Natural Stone bath, Sapphire floor-standing bath shower mixer, and click-clack bath waste.
See page 63 for technical details on the Lonio bath.

Technical specifications

The following section provides necessary measurements and dimensions for every product in the Clearwater portfolio.

Be sure to co-ordinate your selected exclusive bath with a matching basin, your chosen feet option where necessary, brassware and waste. For more information including installation instructions visit clearwaterbaths.com

Quality Assurance Guarantee

We employ an independent Quality Assurance company to test every batch of products we manufacture, using Accepted Quality Level (AQL) MIL-STD-150E as our standard.

Our Baths

EASY INSTALLATION Every Clearwater bath comes with a simple installation guide. All baths are supplied in individual boxes - so they reach your home in perfect condition. In addition we supply each bath in a carrier bag - so that it is easy for installers to move the bath to the proposed location in your bathroom.

HAND MADE Every Clearwater bath is hand made by three people. It takes over ten hours to hand polish every bath. The baths are 'one piece solid surface baths' meaning there are no joins.

The baths retain that 'brand new look' for many years as small scratches/blemishes can easily be removed.

Burlington Bath Taps

Clearwater has paired up with Burlington to offer a range of beautiful, Classic brassware perfectly matched to your chosen Clearwater bath or basin. Choose from either the Anglesey, Claremont, Birkenhead or Kensington tap head ranges and add these to basin taps, bath fillers or bath shower mixers packed with innovative technology and unique features.

For more information on the water saving benefits and innovative design features of Burlington taps, please see the Burlington brochure or visit burlingtonbathrooms.com

QUARTER *turn*

All our taps (except Kensington) come with the classic screw down valves as standard.

For 'Quarter Turn' simply add 'QT' to the product code.

TAP HEADS

All available with any tap base for all applications

Anglesey

Add AN to the start of the code

Claremont

Add CL to the start of the code

Birkenhead

Add BI to the start of the code

Kensington

(Quarter turn only)

Add KE to the start of the code

STANDARD OR REGENT

All available with any tap base for all applications

Standard

To turn your standard taps into taps with Regent bases, simply add 'R' to your code. For example; your Claremont 3" basin taps (CL1) become Claremont Regent 3" basin taps (CLR1).

All our taps (except Kensington) come with the Classic screw down valves as standard. For 'Quarter Turn' simply add 'QT' to the product code.

Regent

Regent tap bases have been designed so that the spouts are 3cm higher off the bath/basin (and a further 3cm away from the wall in the case of Regent wall-mounted taps) than their equivalent namesake. This creates an opulent feel and, in certain commercial applications, ensures compliance with some archaic building regulations.

Classic Fire Hydrant
Supplied with extension and
P-trap waste & extension
D: 795, W: 119, H: 697
Code: W8N

a. Extension*
* Allows the waste pipe to be fitted up to 950mm
away from the centre of the bath waste hole.
b. waste & P-trap Extension*
* Allows the waste pipe to be situated
up to 500mm away from the waste.

Technology

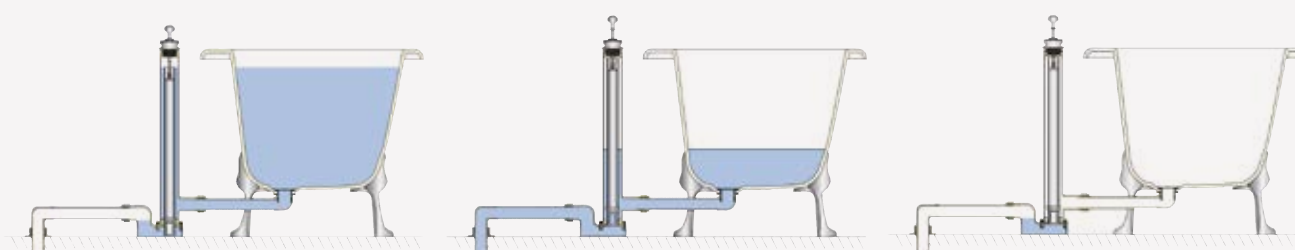

Named Fire Hydrant due to its classic design, this is a very distinctive waste system that operates from the plug hole. Water fills the hydrant which incorporates a built in overflow and plug system, simply lift the handle to empty your bath. This waste system adds a level of opulence to your bathroom.

Fire Hydrant technology

The waste pipe in our 'Fire Hydrant' is designed so that you can change the angles to fit into your waste in the floor.

Fire Hydrants can be used in a free-standing position.
